

DR. ȘTEFAN SARKADI

Proleptic Lecturer (Research Assistant Professor)
RAEng UK Intelligence Community Research Fellow

 <https://www.stefansarkadi.com/>

SUMMARY

- As an interdisciplinary researcher in Artificial Intelligence I aim to deliver highly impactful research at the intersection of Computer Science, Cognitive Science, Philosophy, and Intelligence Analysis.
- Generally, I investigate the reasoning and behaviour of intelligent agents in hybrid societies. In particular, I am interested in aspects of knowledge-sharing interactions such as reasoning, communication, information dissemination, and explanation, in heterogenous self-organising and open multi-agent systems. My main focus and expertise is in the modelling, analysis, and explanation of deception.
- Areas of research: Deception; Multi-Agent Systems; Intelligence Analysis; AI Ethics; Explainable AI.

EDUCATION

PhD in Computer Science (Artificial Intelligence)

King's College London

 2021

 London, UK

MSc. in Mind, Language, and Embodied Cognition (Cognitive Science)

The University of Edinburgh

 2015

 Edinburgh, UK

B.A. (with Hons.) in Philosophy

West University of Timisoara

 2014

 Timisoara, Romania

RESEARCH EXPERIENCE

Proleptic Lecturer (Assistant Professor) & RAEng UK IC Research Fellow

King's College London

 Nov 2023 – present

 London, UK

- Responsible for conducting and leading impactful research in AI and writing research grant proposals.
- Supervision of PhD and MSc students on AI-related topics.
- My research tackles the integration of techniques from AI and deception analysis to understand complex self-organising and self-adaptive human-AI societies. My collaborators include international academic research groups as well as the Intelligence & Defense communities.

Research Fellow

King's College London

 Dec 2022 – present

 London, UK

- Funded by the Royal Academy of Engineering UK Intelligence Community Fellowship
- £200.000 individual grant awarded for at least 2 years to explore the topic *Enhancing deception analysis with storytelling AI*
- Working on integrating techniques from AI and deception analysis to generate narratives about multi-agent interactions in complex systems in order to help intelligence analysts perform inference to the best explanation.

- My fellowship also involves international research collaborations with a potential for very high impact in International Security & Defense, which I will conduct at various institutions and groups in addition to KCL, including the National Police AI Lab and the Uni. of Utrecht in the Netherlands, Inria, CNRS, and 3iA Côte d'Azur in France, and with the Intelligence Community.
-

Associate Researcher

Inria

📅 Jan 2022 – present

📍 Sophia-Antipolis, France

- Working on open multi-agent systems that allow successful knowledge-sharing interactions between different types of AI agents (Logic-based, ML, neurosymbolic). I am part of the Wimmics and Hyperagents research groups.
-

Post-Doctoral Research Associate

King's College London, Dept. of Informatics

📅 Jan 2022 – Jan 2023

📍 London, UK

- Worked on the PRAISE project within the National Research Centre on Privacy, Harm Reduction and Adversarial Influence Online (REPHRAIN).
 - Assisting Prof. Jose Such with the supervision of a PhD student working on AI for privacy.
-

3iA Post-Doctoral Research Fellowship

Inria, Sophia-Antipolis

📅 Nov 2020 – Dec 2021

📍 Sophia-Antipolis, France

- 3iA Côte d'Azur Project: Design and test multi-agent models and protocols to orchestrate the interactions between agents that embed different AI methods. The aim of this project is ensuring an optimised collaboration to augment, improve, and govern knowledge sharing activities in Open Multi-Agent Systems.
 - Hyper-Agents Project: Define a new class of Multi-Agent Systems that use hypermedia as a general mechanism for uniform interaction to support AI on the Web.
-

PhD Researcher

King's College London, Dept. of Informatics

📅 Oct 2016 – Oct 2020

📍 London, UK

- Thesis title: *Deception*
 - Research, design, implementation and evaluation of Agent Based Models and Multi-Agent Systems for the study of deception.
 - Engineering of complex reasoning and communication mechanisms for deceptive artificial agents using techniques from Game-Theory, Knowledge Representation and Agent-Oriented Programming Languages.
 - Extensive interdisciplinary research on the topic of human and machine deception covering literature from Psychology, Philosophy, Sociology, Economics, and Communication Theory.
-

Visiting PhD Researcher

MIT, Media Lab

📅 Jul 2018 – Oct 2018

📍 Cambridge, MA, USA

- Research, design, implementation and evaluation of evolutionary game-theoretical models of agents.
- Development of evolutionary models using high-level cognitive architectures to study the evolution of deception.

TEACHING QUALIFICATIONS & EXPERIENCE

Associate Fellow of the HEA

The Higher Education Academy UK

📅 2019 - present

📍 London, UK

Lecturer

King's College London, Dept. of Informatics

📅 Sep 2022 – present

📍 London, UK

- Delivered 20% of the lectures for the *Agents & Multi-Agent Systems Module* (6CCS3AMS/7CCSMAMS).
- Responsible for designing parts of the core material and designing and marking parts of the exam questions for 6CCS3AMS and 7CCSMAMS.
- Supervised 6 MSc students on topics related to the modelling of artificial societies and social simulation.

Graduate Teaching Assistant

King's College London, Dept. of Informatics

📅 Sep 2016 – Dec 2019

📍 London, UK

- Guest lecturer - *Artificial Intelligence*.
- Guest lecturer - *Advanced Research Topics in Computer Science*.
- Design and organisation of tutorials and seminar materials - *Philosophy & Ethics of AI and Artificial Intelligence*.
- Coursework marking - *Artificial Intelligence*.
- Small group tutorials and seminars teaching - *Introduction to Artificial Intelligence* and *Elementary Logic & Applications*.
- Large group tutorials and seminars teaching - *Artificial Intelligence*; *Elementary Logic & Applications*; and *Philosophy & Ethics of AI*.
- Lab and practicals teaching - *Artificial Intelligence*; *Machine Learning*; *Computer Programming for Data Science*; *Introductory Course to Python* for the MSc in Data Science.

AWARDS & GRANTS

- RAEng UK IC Research Fellowship (2022-2024) Grant total: **£ 200,000**.
- Inria Recipient of the 3IA Postdoctoral Fellowship (2020-2022).
- Lead researcher for *Online Deception Survey Research Grant*, The Alan Turing Institute defence and security ARC (2020). Grant total: **£ 8,960**.
- Nomination - Graduate Teaching Assistant for the university-wide *2020 King's Education Awards*, at King's College London.
- Nomination - Department of Informatics *2018/2019 Outstanding Teaching Assistant Award*, at King's College London.
- *Best Visionary Paper* selection at AAMAS (2023).
- Two *Best Early Researcher Paper* nominations at the EUMAS-AT conference (2018).
- *Graduate Visiting Researcher Funding*, MIT Media Lab (2018).
- *Conference Travel Grant for IJCAI '18*, Artificial Intelligence Journal (2018).
- *NMS Faculty Studentship Scheme*, King's College London (2018-2020).
- *Graduate Teaching Studentship*, King's College London (2016-2018).
- *Academic Performance Scholarship*, West University of Timișoara (2012-2014).

PROFESSIONAL ACTIVITIES

- *General chair* of the 1st and 2nd International Workshops on Deceptive AI @ECAI2020 & @IJCAI2021.
- *Co-chair* of the 1st International Workshop on Argumentation & Machine Learning @COMMA2022.

- *Co-founder and co-editor* of the Online Handbook of Argumentation for Artificial Intelligence (OHAAI).
- *PC Member* - 1st, 2nd and 3rd International Workshops on Explainable Transparent Autonomous Agent and Multi-Agent Systems (EXTRAAMAS).
- *PC Member* - 1st & 2nd International Conference on AI for People (CAIP'21).
- *PC Member* - 1st Workshop on Argumentation for eXplainable Artificial Intelligence (ArgXAI 2022).
- *PC Member* - International Workshop on Coordination, Organizations, Institutions, Norms and Ethics for Governance of Multi-Agent Systems (COINE 2024).
- *Reviewer* - Autonomous Agents and Multi-Agent Systems (AAMAS 2024).
- *Reviewer* - Annual International Conference on Human-Agent Interaction (HAI 2018).
- *Reviewer* - Journal of Autonomous Agents & Multi-Agent Systems (JAAMAS).
- *Reviewer* - Decision Support Systems (DECSUP).
- *Reviewer* - Journal of Applied Logic (JAL).
- *Reviewer* - Journal of Logic and Computation (JLC).
- *Reviewer* - The Knowledge Engineering Review (KER).
- *Reviewer* - Philosophical Psychology.
- *Reviewer* - ACM Transactions on Autonomous & Adaptive Systems (ACM TAAS).
- *Reviewer* - IEEE Transactions on Cognitive and Developmental Systems (IEEE TCDS).
- *Reviewer* - IEEE Technology & Society Magazine (IEEE TSM).
